

## Emergency Contraceptive Pill aka "the morning after pill"

Uses hormones to reduce the chance of pregnancy happening after unprotected sex

 $\bigotimes$ 

You have up to 5 days to take it, depending on the type of pill you take

 $\bigotimes$ 

Is free from lots of places, including some pharmacies, sexual health clinics and GP practices

Find a list of places you can get the emergency contraceptive pill at www.leicestersexualhealth.nhs.uk
